SUBJECT: BUDGET PLANNING AND DEVELOPMENT

Budget planning and development for the District will be an integral part of program planning so that the annual operating budget may effectively express and implement programs and activities of the School System. Budget planning will be a year-round process involving participation of District-level administrators, Principals, Directors, Coordinators, teachers, and other personnel. The process of budget planning and development should allow for community input and contain numerous opportunities for public information and feedback.

The Superintendent will have overall responsibility for budget preparation, including the construction of and adherence to a budget calendar. Program managers will develop and submit budget requests for their particular areas of responsibility after seeking the advice and suggestions of staff members.

Principals will develop and submit budget requests for their particular schools in conjunction with the advice and suggestions of staff members and their own professional judgment. Each school's budget request will be the Principal's recommendation as to the most effective way to use available resources in achieving progress toward the approved educational objectives of the school. Program budgets and school budgets will reflect state and/or federal requirements, special sources of funding, and District objectives and priorities.

The Board will give consideration to budget requests, and will review allocations for appropriateness and for their consistency with the School System's educational priorities.

All budget documents for distribution to the public shall be in plain language and organized in a manner which best promotes public comprehension of the contents. Documents shall be complete and accurate and contain sufficient detail to adequately inform the public regarding such data as estimated revenues, proposed expenditures, transfers to other funds, fund balance information, and changes in such information from the prior year's submitted budget.

In accordance with Commissioner's Regulations, the budget will be presented in three components which are to be voted upon as one proposition. The law prescribes the types of items to be included in each component and further prescribes that all relevant costs be included in the component.

- a) A program component which shall include, but need not be limited to, all program expenditures of the School District, including the salaries and benefits of teachers and any school administrators or supervisors who spend a majority of their time performing teaching duties, and all transportation operating expenses;
- b) A capital component which shall include, but need not be limited to, all transportation capital, debt service, and lease expenditures; costs resulting from judgments and tax certiorari proceedings or the payment of awards from court judgments, administrative orders or settled or

compromised claims; and all facilities costs of the School District, including facilities lease expenditures, the annual debt service and total debt for all facilities financed by bonds and notes of the School District, and the costs of construction, acquisition, reconstruction, rehabilitation or improvement of school buildings, provided that such budget shall include a rental, operations and maintenance section that includes base rent costs, total rent costs, operation and maintenance charges, cost per square foot for each facility leased by the District, and any and all expenditures associated with custodial salaries and benefits, service contracts, supplies, utilities, and maintenance and repairs of school facilities; and

- c) An administrative component which shall include, but need not be limited to, office and central administrative expenses, traveling expenses and all compensation, including salaries and benefits of all school administration and supervisors, business administrators, superintendents of schools and deputy, assistant, associate or other superintendents under all existing employment contracts or collective bargaining, any and all expenditures associated with the operation of the Office of the School Board, the Office of the Superintendent of Schools, General Administration, the School Business Office, consulting costs not directly related to direct student services and programs, planning and all other administrative activities.

Additionally, the Board of Education shall append to the proposed budget the following documents:

- a) A detailed statement of the total compensation to be paid to the Superintendent of Schools, and any Assistant or Associate Superintendent of Schools in the ensuing school year, including a delineation of the salary, annualized cost of benefits and any in-kind or other form of remuneration;
- b) A list of all other school administrators and supervisors, if any, whose annual salary for the coming school year will be at or above that designated in law for such reporting purposes, with the title of their positions and annual salary identified;
- c) A School District Report Card, prepared pursuant to Commissioner's Regulations, which includes measures of the academic performance of the School District, on a school by school basis, and measures of the fiscal performance of the District (see subheading School District Report Card);
- d) A Property Tax Report Card prepared in accordance with law and Commissioner's Regulations (see subheading Property Tax Report Card); and
- e) A Tax Exemption Report prepared in accordance with law (see subheading Tax Exemption Report).

(Continued)

SUBJECT: BUDGET PLANNING AND DEVELOPMENT (Cont'd.)

The Board shall ensure that unexpended surplus funds (i.e., operating funds in excess of the current school year budget, not including funds properly retained under other sections of law) have been applied in determining the amount of the school tax levy. Surplus funds shall mean any operating funds in excess of four percent (4%).

The proposed budget for the ensuing school year shall be reviewed by the Board of Education and publicly disseminated, in accordance with law, prior to its submission to District voters for approval.

District funds may be expended to inform the public regarding the annual budget and to present the annual budget to District voters; however, such funds shall not be utilized to promote either a favorable or negative opinion of the proposed budget.

School District Report Card

Each year the District shall supply data as required by the State Education Department (SED) and will receive a School District Report Card, sometimes referred to as a New York State Report Card. The Report Cards provide enrollment, demographic, attendance, suspension, dropout, teacher, assessment, accountability, graduation rate, post-graduation plan, career and technical education, and fiscal data for public and charter schools, districts and the State. The Report Cards are generated from the supplied data and are in a format dictated by SED. The School District Report Cards consist of three parts:

- a) Accountability and Overview Report - shows District/school profile data, accountability statuses, data on accountability measures such as ELA, Math, and Science scores, and graduation rates.
- b) Comprehensive Information Report - shows non-accountability data such as annual Regents examination results and post-graduate plans of students completing high school.
- c) Fiscal Accountability Supplement - shows expenditures per pupil and some information about placement and classification of students with disabilities.

School District Report Cards are also available online at the SED website:
<https://reportcards.nysed.gov/>

Property Tax Report Card

Each year, the Board of Education shall prepare a Property Tax Report Card, pursuant to Commissioner's Regulations, and shall make it publicly available by transmitting it to local newspapers of general circulation, appending it to copies of the proposed budget made publicly available as required by law, making it available for distribution at the Annual Meeting, and otherwise disseminating it as required by the Commissioner.

(Continued)

SUBJECT: BUDGET PLANNING AND DEVELOPMENT (Cont'd.)

The Property Tax Report Card shall include:

- a) The amount of total spending and total estimated school tax levy that would result from adoption of the proposed budget, and the percentage increase or decrease in total spending and total school tax levy from the School District budget for the preceding school year; and
- b) The projected enrollment growth for the school year for which the budget is prepared, and the percentage change in enrollment from the previous year; and
- c) The percentage increase in the average of the Consumer Price Indexes from January first of the prior school year to January first of the current school year as defined in Education Law; and
- d) The projected amount of the adjusted unrestricted fund balance that will be retained if the proposed budget is adopted; the projected amount of the adjusted restricted fund balance; the projected amount of the assigned appropriated fund balance; the percentage of the proposed budget that the adjusted unrestricted fund balance represents; the actual adjusted unrestricted fund balance retained in the School District budget for the preceding school year; and the percentage of the School District budget for the preceding school year that the actual adjusted unrestricted fund balance represents; and
- e) The District's school tax levy limit calculation. The District will submit its school tax levy limit calculation to the Office of the State Comptroller, NYSED and the Office of Taxation and Finance by March 1 annually. If a voter override of the tax levy limit is necessary, the budget vote must be approved by sixty percent (60%) of the District's qualified voters present and voting.

A copy of the Property Tax Report Card prepared for the Annual District Meeting shall be submitted to the State Education Department in the manner prescribed by the Department by the end of the business day next following approval of the Property Tax Report Card by the Board of Education, but no later than 24 days prior to the statewide uniform voting day (i.e., the third Tuesday in May).

The State Education Department shall compile such data for all school districts whose budgets are subject to a vote of the qualified voters, and shall make such compilation available electronically at least ten days prior to the statewide uniform voting day.

Tax Exemption Report

A Tax Exemption Report shall be annexed to any tentative or preliminary budget and shall become part of the final budget. This report shall be on the form as prescribed by the State Board of Real Property Services and shall show the following:

(Continued)

SUBJECT: BUDGET PLANNING AND DEVELOPMENT (Cont'd.)

- a) How much of the total assessed value of the final assessment roll(s) used in the budgetary process is exempt from taxation;
- b) Every type of exemption granted as identified by statutory authority;
- c) The cumulative impact of each type of exemption expressed either as a dollar amount of assessed value or as a percentage of the total assessed value on the roll;
- d) The cumulative amount expected to be received from recipients of each type of exemption as payments in lieu of taxes or other payments for municipal services; however, individual recipients are not to be named; and
- e) The cumulative impact of all exemptions granted.

Notice of this report shall be included in any notice of the preparation of the budget required by law and shall be posted on any bulletin board maintained by the District for public notices as well as on any website maintained by the District.

SUBJECT: BUDGET ADOPTION

The Board of Education shall review the recommended budget of the Superintendent of Schools and shall seek public input and feedback regarding the recommended budget including, but not limited to, holding a public budget hearing not less than seven nor more than 14 days prior to the Annual District Meeting and Election at which the budget vote is to occur. The Board may modify the recommended budget of the Superintendent prior to its submission to District voters. Final authorization of the proposed budget is dependent upon voter approval unless a contingency budget is adopted by the Board.

In the event the original proposed budget is not approved at the Annual District Meeting and Election, the Board may resubmit the original proposed budget or a revised budget for voter approval, or individual propositions may be placed before District voters, at a special meeting held on the third Tuesday of June. If the voters fail to approve the second budget submittal, or budget proposition(s), or if the Board elects not to put the proposed budget to a public vote a second time, the Board must adopt a contingency budget with a tax levy that is no greater than the prior year's levy.

The School District budget for any school year, or any part of such budget, or any proposition(s) involving the expenditure of money for that school year, shall not be submitted for a vote of the qualified District voters more than twice.

The School District budget, once adopted, becomes the basis for establishing the tax levy on real property within the District.

and 2601-a
8 New York Code of Rules and Regulations (NYCRR) Sections 100.2(bb), 170.8 and 170.9

SUBJECT: ADMINISTRATION OF THE BUDGET

The Superintendent of Schools, working in conjunction with the administrative staff, is responsible to the Board for the administration of the budget.

- a) He/she shall acquaint District employees with the final provisions of the program budget and guide them in planning to operate efficiently and economically within these provisions.
- b) Under his/her direction the District shall maintain such records of accounting control as are required by the New York State Uniform System of Accounts for School Districts, the Board of Education, and such other procedures as are deemed necessary and shall keep the various operational units informed through periodic reports as to the status of their individual budgets.
- c) Board approval is required prior to the expenditure of District funds.

SUBJECT: CONTINGENCY BUDGET

The School District budget for any school year or any part of such budget, or any proposition involving the expenditure of money for such school year, shall not be submitted for a vote of the qualified voters of the District more than twice in any school year.

If the original proposed budget is not approved by District voters at the Annual District Meeting and Election, the Board has the option of either resubmitting the original or revised budget for voter approval at a special meeting held at a later date; or the Board may, at that point, adopt a contingency budget. If the Board decides to submit either the original or a revised budget to the voters for a second time, and the voters do not approve the second budget submittal, the Board must adopt a contingency budget and the tax levy cannot exceed the total tax levy of the prior year (0% levy growth).

The administrative component of the contingency budget shall not comprise a greater percentage of the contingency budget exclusive of the capital component than the lesser of:

- a) The percentage the administrative component had comprised in the prior year budget exclusive of the capital component; or
- b) The percentage the administrative component had comprised in the last proposed defeated budget exclusive of the capital component.

SUBJECT: DISTRICT INVESTMENTS

Whenever the District has funds (including operating funds, reserve funds and proceeds of obligations) that exceed those necessary to meet current expenses, the Board of Education shall authorize the School District Treasurer to invest such funds in accordance with all applicable laws and regulations and in conformity with the guidelines established by this policy.

Objectives

The objectives of this investment policy are four-fold:

- a) Investments shall be made in a manner so as to safeguard the funds of the School District.
- b) Bank deposits shall be made in a manner so as to safeguard the funds of the School District.
- c) Investments shall be sufficiently liquid so as to allow funds to be available as needed to meet the obligations of the School District.
- d) Funds shall be invested in such a way as to earn the maximum yield possible given the first three investment objectives.

Authorization

The authority to deposit and invest funds is delegated to the School District Treasurer. These functions shall be performed in accordance with the applicable sections of the General Municipal Law and the Local Finance Law of the State of New York.

The School District Treasurer may invest funds in the following eligible investments:

- a) Obligations of the State of New York.
- b) Obligations of the United States Government, or any obligations for which principal and interest are fully guaranteed by the United States Government.
- c) Time Deposit Accounts placed in a commercial bank authorized to do business in the State of New York, providing the account is collateralized as required by law. (Banking Law Section 237(2) prohibits a savings bank from accepting a deposit from a local government. This also applies to savings and loan associations.)
- d) Transaction accounts (demand deposits) both interest bearing and non-interest bearing that do not require notice of withdrawal placed in a commercial bank authorized to do business in the State of New York, providing the account is collateralized as required by law.

- f) Securities purchased pursuant to a Repurchase Agreement whereby one party purchases securities from a second party and the second party agrees to repurchase those same securities on a specific future date at an agreed rate of return (the interest rate).

Implementation

Using the policy as a framework, regulations and procedures shall be developed which reflect:

- a) A list of authorized investments;
- b) Procedures including a signed agreement to ensure the School District's financial interest in investments;
- c) Standards for written agreements consistent with legal requirements;
- d) Procedures for the monitoring, control, deposit and retention of investments and collateral which shall be done at least once a month;
- e) Standards for security agreements and custodial agreements consistent with legal requirements;
- f) Standards for diversification of investments including diversification as to type of investments, and firms and banks with whom the School District transacts business; and
- g) Standards for qualification of investment agents which transact business with the School District including, at minimum, the Annual Report of the Trading Partner.

SUBJECT: ACCEPTANCE OF GIFTS, GRANTS AND BEQUESTS TO THE SCHOOL DISTRICT

The Board may accept gifts, donations, grants and/or bequests of money, real or personal property, as well as other merchandise which, in view of the Board, add to the overall welfare of the School District, provided that such acceptance is in accordance with existing laws and regulations. Donations to the school are fully tax deductible so long as the gift is used exclusively for public purposes in accordance with USC Section 170(c). However, the Board is not required to accept any gift, grant or bequest and does so at its discretion, basing its judgment on the best interests of the District. Furthermore, the Board will not accept any gift, grant or bequest which constitutes a conflict of interest and/or gives an appearance of impropriety.

At the same time, the Board will safeguard the District, the staff and students from commercial exploitation, from special interest groups, and the like.

The Board will not accept any gifts or grants which will place encumbrances on future Boards, or result in unreasonable additional or hidden costs to the District. The Board may, if it deems it necessary, request that gifts of equipment, facilities or any item that requires upkeep and maintenance include funds to carry out such maintenance for the foreseeable life of the donation.

Any gifts or grants donated to the Board and accepted on behalf of the School District must be by official action and resolution passed by Board majority. The Board would prefer the gift or grant to be a general offer rather than a specific one. Consequently, the Board would suggest that the donor/grantor work first with the school administrators in determining the nature of the gift or grant prior to formal consideration for acceptance by the Board. However, the Board, in its discretion, may direct the Superintendent of Schools to apply such gift or grant for the benefit of a specific school or school program.

The Board is prohibited, in accordance with the New York State Constitution, from making gifts/charitable contributions with School District funds.

Gifts and/or grants of money to the District shall be annually accounted for in the General or Special Aid funds of the District.

All gifts, grants and/or bequests shall become School District property. A letter of appreciation, signed by the President of the Board and the Superintendent, will be sent to a donor/grantor in recognition of his/her contribution to the School District. Letters will be sent in a timely manner and will acknowledge the possible tax deduction available to donors whose gifts qualify under IRS regulations.

Every cardholder, as herein authorized, shall be responsible for all charges against the credit card assigned to him or her until such charges have been duly authenticated and approved for payment by the Board as representing valid and acceptable charges and expenditures of the District.

Credit cards shall not be used to circumvent the District purchasing policies and procedures or compliance with the Education Law or General Municipal Law regarding the same.

(Continued)

SUBJECT: USE OF THE DISTRICT CREDIT CARD(S) (Cont'd.)

The credit cards remain the property of the Binghamton City School District and may be recalled at any time by the Board for any reason.

Any violation of this policy by the Superintendent shall subject the Superintendent to disciplinary action as determined by the Board.

Each cardholder shall be appraised of the procedures governing the use of the credit card and a copy of this policy shall be given to each cardholder.

The School District Treasurer shall periodically, but no less than twice a year, monitor the use of each credit card and report any serious problems and/or discrepancies directly to the Superintendent and the Board.

SUBJECT: CELL PHONE POLICY

The Board of Education of the Binghamton City School District ("Board") believes that, for sound business practices and safety considerations, the use of District issued cell phones by the Superintendent and Assistant Superintendents, and other district administration officials and employees, contribute to the safe and efficient operation of the District. Only cell phone usage related to the Binghamton City School District business shall be authorized and paid by the District.

The Superintendent or the Superintendent's designee is authorized to obtain cell phones and cell phone accounts in the District's name for use by the Superintendent and Assistant Superintendents, and other District officials and employees, for use in the performance of District related duties. The Superintendent or Superintendent's designee shall provide employees with a cell phone and a cell phone plan that best aligns their job duties to the minutes/month that is most reasonable and appropriate to conduct their job duties.

Employees must take proper care of cell phones and take all reasonable precautions against damage, loss, or theft. SUBJECT: REIMBURSEMENT FOR MEALS/REFRESHMENTS**Travel Outside of District/Emergency Meetings**

School District officials and employees are entitled to reimbursement for necessary expenses incurred in the performance of their official duties. However, it is the position of the New York State Comptroller's Office that meals of public officers and employees generally should not be reimbursed or paid by the municipal entity unless the officer or employee is traveling outside his/her regular work area on official business for an extended period of time, or where events prevent them from taking off during mealtime for food consumption because of a pressing need to complete business. All requests for reimbursement must document who attended the meetings and how the meetings fit these conditions.

Staff/Board Meetings and District Events

The Board of Education recognizes that from time to time, meals and/or refreshments may be deemed appropriate for a particular District meeting, event or situation. It is acknowledged that meal and/or refreshment expenditures may be incurred as an extension of the responsibilities of District employees or to continue to enhance a specific activity or event that is being held for a District business or education purpose.

Meal or refreshment requests may be approved when:

- a) Officers and/or employees of the District will be prevented from taking time off for food consumption due to a pressing need to complete the business at hand;
- b) The District is faced with business of an immediate nature and meetings of District employees are essential at mealtime;
- c) The District wishes to recognize the services provided by volunteers or other unsalaried members of the District (in such cases, however, the only meals of those being recognized may be reimbursed and the cost of the meals must be reasonable).

Examples of an authorized expenditure include, but are not limited to, refreshments and/or meals for staff assigned to participate in assessment day grading of standardized tests, refreshments for Superintendent's Conference Days, or receptions for District volunteers.

Any expenditure on such meals and/or refreshments must be approved in advance by the Superintendent or Superintendent's designee. All expenses must be properly documented and submitted to the District Business Office for the purpose of audit and possible payment. No orders shall be placed prior to approval and/or the issuance of a District Purchase Order.

SUBJECT: PURCHASING: COMPETITIVE BIDDING AND OFFERING

Except as otherwise provided by law, all contracts for public work involving an expenditure of more than thirty-five thousand dollars (\$35,000) and all purchase contracts involving an expenditure of more than twenty thousand dollars (\$20,000) shall be awarded by the District to the lowest responsible bidder furnishing the required security after advertisement for sealed bids. However, the District may, in its discretion, award purchase contracts on the basis of "best value" to a responsive and responsible bidder or offerer, provided the Board of Education has authorized such action by rule, regulation or resolution adopted at a public meeting.

No bid or offer shall be accepted that does not conform to specifications furnished unless such specifications are waived by Board action. The District may, in its discretion, reject all bids or offers and readvertise for new bids or offers in a manner consistent with New York State law.

All contracts requiring public advertising and competitive bidding or offering will be awarded by resolution of the Board.

Except as authorized by law, no Board member or employee of the School District shall have an interest in any contract entered into by the School District.

Standardization

Upon the adoption of a standardization resolution by a vote of at least three-fifths (3/5) of all Board members, purchase contracts for a particular type or kind of equipment, materials or supplies of more than twenty thousand dollars (\$20,000) may be awarded by the Board to the lowest responsible bidder or offerer furnishing the required security after advertisement for sealed bids in the manner provided in law. Such resolution must state that, for reasons of efficiency or economy, there is a need for standardization and must contain a full explanation of those reasons. Upon the adoption of a valid standardization resolution, the District may provide in its specifications for a particular make or brand to the exclusion of others.

"Piggybacking" Exception to Competitive Bidding

The District may, in its discretion, purchase certain goods and services (apparatus, materials, equipment and supplies) at costs beyond the above-referenced thresholds through the use of contracts let by the United States or any agency thereof, any state, and any county, political subdivision or district of any state.

This method of procurement is permitted on contracts issued by other governmental entities, provided that the original contract:

- a) Has been let by the United States or any agency thereof, any state (including New York State) or any other political subdivision or district therein;

Comments concerning the District's bidding and purchasing policies and procedures will be solicited from those District employees involved in the procurement process from time to time.

The Board of Education will annually review its bidding and purchasing policies and procedures. The School Business Official will be responsible for conducting an annual review of such policies and for an evaluation of the internal control structure established to ensure compliance with the procurement policy.

Except as authorized by law, no Board member or employee of the School District shall have an interest in any contract entered into by the School District.

Purchasing Process

The Board of Education recognizes its responsibility to ensure the development of procedures for the procurement of goods and services not required by law to be made pursuant to competitive bidding requirements. These goods and services will be procured in a manner so as to:

- c) Guard against favoritism, improvidence, extravagance, fraud and corruption.

These procedures shall contain, at a minimum, provisions which:

- a) Prescribe a process for determining whether a procurement of goods and services is subject to competitive bidding and if it is not, documenting the basis for such determination;
- b) With certain exceptions, provide that alternative proposals or quotations for goods and services shall be secured by use of written request for proposals, written quotations, verbal quotations or any other method of procurement which furthers the purposes of General Municipal Law Section 104-b;
- c) Set forth when each method of procurement will be utilized;

#5412 -- Alternative Formats for Instructional Materials

Adopted: 7/6/16

SUBJECT: ALTERNATIVE FORMATS FOR INSTRUCTIONAL MATERIALS

Preference in the purchase of instructional materials will be given to vendors who agree to provide materials in a usable alternative format (i.e., any medium or format, other than a traditional print textbook, for presentation of instructional materials that is needed as an accommodation for each student with a disability, including students requiring Section 504 Accommodation Plans, enrolled in the School District). Alternative formats include, but are not limited to, Braille, large print, open and closed captioned, audio, or an electronic file in an approved format as defined in Commissioner's Regulations.

The District has adopted the National Instructional Materials Accessibility Standard (NIMAS) to ensure that curriculum materials are available in a usable alternative format for students with disabilities. The District will be responsible to ensure that each student who requires instructional materials in an alternate format will receive it in a timely manner and in a format that meets NIMAS standards.

The District will establish a plan to ensure that instructional materials in a usable alternative format for each student with a disability (including students requiring Section 504 Accommodation Plans) are based upon the student's educational needs and course selections, and will be available at the same time as such instructional materials are available to non-disabled students.

Such Plan will:

- a) Ensure that the District gives a preference in the purchase of instructional materials it has selected for its students to those vendors who agree to provide such instructional materials in alternative formats;
- b) Specify when an electronic file is provided, how the format will be accessed by students and/or how the District will convert to an accessible format;
- c) Specify the process to be used when ordering materials to identify the needs of students with disabilities residing in the District for alternative format materials;
- d) Specify ordering timelines to ensure that alternative format materials are available at the same time as regular format materials are available; and
- e) Include procedures so that when students with disabilities move into the School District during the school year, the process to obtain needed materials in alternative formats for such students is initiated without delay.

SUBJECT: ALLEGATIONS OF FRAUD**Reporting and Investigations of Allegations of Fraud**

All Board members and officers, District employees and third party consultants are required to abide by the District's policies, administrative regulations and procedures in the conduct of their duties. However, even in the absence of a report of suspected wrongful conduct, if the District has knowledge of, or reason to know of, any occurrence of financial improprieties/fraud and/or wrongful conduct, the District will investigate such conduct promptly and thoroughly. To the extent possible, within legal constraints, all reports will be treated as confidentially and privately as possible. However, disclosure may be necessary to complete a thorough investigation of the charges and/or to notify law enforcement officials as warranted, and any disclosure will be provided on a "need to know" basis. Written records of the allegation, and resulting investigation and outcome will be maintained in accordance with law.

Based upon the results of this investigation, if the District determines that a school employee(s) has/have engaged in financial improprieties/fraudulent and/or wrongful actions, appropriate disciplinary measures will be applied, up to and including termination of employment, in accordance with legal guidelines, District policy and regulation, and any applicable collective bargaining agreement. Third parties who are found to have engaged in financial improprieties/fraud and/or wrongful conduct will be subject to appropriate sanctions as warranted and in compliance with law. *The application of such disciplinary measures by the District does not preclude the filing of civil and/or criminal charges as may be warranted. Rather, when school officials receive a complaint or report of alleged financial improprieties/fraud and/or wrongful conduct that may be criminal in nature, law authorities should be immediately notified.*

The Board also prohibits any retaliatory behavior directed against any witnesses and/or any other individuals who participate in the investigation of an allegation of illegal or inappropriate fiscal practices or actions. Follow-up inquiries shall be made to ensure that no reprisals or retaliatory behavior has occurred to those involved in the investigation. Any act of retaliation is prohibited and subject to appropriate disciplinary action by the District.

 2. The Commissioner shall require a re-inspection of school buildings where a report of inspection identified violations that, if uncorrected, would cause the department to deny an annual Certificate of Occupancy to such school building, and shall require additional re-inspections until it is demonstrated to the satisfaction of the Commissioner that said violations have been corrected.
- d) A building condition survey shall be conducted for all occupied school buildings once every five years by a team that includes at least one licensed architect or engineer.

2. A plan to ensure that all contractors comply with all health and safety issues and regulations, and wear photo identification badges;
3. An opportunity for the District's Health and Safety Committee to conduct a walk-through inspection of newly renovated or constructed areas to confirm that the area is ready to be reopened for use; and

The committee will develop recommendations for the Board's consideration.

The report of the advisory committee shall be made at a regular Board Meeting. Public notice shall be made in advance of the date of such report, and public comment will be invited.

Before reaching a decision to close a school building, the Board of Education will consider all the data and recommendations submitted by the Advisory Committee. The Board shall render its decision on the closing of the building at a regular or special meeting.

SUBJECT: PEST MANAGEMENT AND PESTICIDE USE

The Board of Education is committed to maintaining the integrity of school buildings and grounds while protecting the health and safety of students and staff and maintaining a productive learning environment.

Structural and landscape pests can pose significant problems for people and property. Weeds and infestations can destroy playing fields and playgrounds and more importantly, cause severe allergic reactions. Pesticides can pose risks to people, property, and the environment. It is therefore the policy of the School District to incorporate Integrated Pest Management (IPM) procedures for control of weeds, structural and landscape pests. The objective of this program is to provide necessary pest control while using the least toxic approach to all pests, weeds and infestations.

Pest/Pesticide Management Plan

The District will manage weeds and pests to:

- a) Reduce any potential human health hazard or threat to public safety.
- b) Prevent loss or damage to school structures or property.
- c) Prevent pests from spreading into the community, or to plant and animal populations beyond the site.
- d) Enhance the quality of life for students, staff, and others.

Integrated Pest Management (IPM) Coordinator

An IPM Coordinator will be appointed by the Superintendent of Schools. The Coordinator will be responsible for implementing the IPM policy and plan. The Coordinator's responsibilities will include, but are not limited to, the following:

- a) Recording all pest sightings by school staff and students.
- b) Recording all pesticide use and utilizing the least toxic approach.
- c) Meeting with a local pest control expert, such as a pesticide contractor to share information on what pest problems are present in the school.
- d) Assuring that all of the expert's recommendations on maintenance and sanitation are carried out where feasible.

(Continued)

SUBJECT: PEST MANAGEMENT AND PESTICIDE USE (Cont'd.)

- e) Assuring that pesticide use is done when school is not in session or when the area can be completely secured against access by school staff and students for a standard seventy-two (72) hours, or as required by the pesticide being used.
- f) Evaluating the school's progress in the IPM plan.
- g) Notifying parents, staff and neighbors of any applications of pesticides 48 hours before they occur. The IPM Coordinator will serve as the District's Pesticide Representative.

Pesticide Use on Common Areas

Pesticides will not be used on playgrounds, turf, athletic or playing fields, in effect, all lawn areas of the school. In these common areas where children gather and play, pesticide alternatives will be used whenever possible and effective. The prohibition does not apply to indoor use or the application to building structures.

An exception may be made for emergency applications of pesticide only when approved in advance by the School Board. The Board may consult with the local Health Department on public health related emergency determinations. They may also consult with the Department of Environmental Conservation (DEC) for environmental emergency determinations. Emergency determinations should only be sought for one-time pesticide application in a specific situation, which presents a true emergency. The guidance document from DEC provides clarification on emergency determinations. It can be found at:

http://www.dec.ny.gov/docs/materials_minerals_pdf/guidancech85.pdf

Some types of pesticides and alternatives, those deemed safe in federal regulation, may be allowable on playing fields and playgrounds in certain circumstances. The District will develop regulations governing the use of pesticides and their alternatives on school grounds.

Fertilizer Use

Phosphorous fertilizers will only be used on school grounds in compliance with the requirements of Environmental Conservation Law Section 17-2103, which provides:

- a) Fertilizer use is prohibited between December 1 and April 1 annually.
- b) The use of fertilizers is prohibited within twenty (20) feet of any surface water except:

(Continued)

SUBJECT: PEST MANAGEMENT AND PESTICIDE USE (Cont'd.)

1. Where a continuous natural vegetation buffer, at least ten feet wide, separates lawn and water.
 2. Where a spreader guard, deflector shield or drop spreader is used, then the application may not occur within three feet of any surface water.
- c) The use of phosphorus fertilizers are prohibited on lawns or other non-agricultural turf with the following exceptions:
1. The use of phosphorus fertilizers are needed to establish a new lawn; or
 2. A soil test shows that phosphorus fertilizers are needed for growth.
- d) Fertilizer cannot be used on any impervious surfaces and if such an application occurs, it must be cleaned immediately and legally applied or placed in an appropriate container.

Notification

The District's IPM Coordinator or designated Pesticide Representative will give prior written notice of all pesticide applications to anyone who has asked to receive such notice. The District will also notify parents, students and staff of periodic pesticide applications. The District will maintain a list of those people who wish to receive 48 hour notice before pesticide applications and will ensure that a system is developed to deliver such notice in a timely fashion to all affected. The notification system may be by mail or email, and will ensure that a back-up method is available to notify those for whom the regular system is unworkable. The name and contact information for the District Pesticide Representative will be made available to all requesting it.

Sample forms for 48 hour prior notification can be obtained at:
http://www.emsc.nysed.gov/facplan/documents/PesticideNeighborNotificationGuidelineforSchools_091001.pdf

The District must also provide additional written notification to all parents and staff three times per year to inform them of any pesticide applications that have occurred: within ten days of the end of the school year, within two school days of the end of winter recess and within two days of the end of spring recess.

Recordkeeping

Records of pesticide use will be maintained on site for three years. Records will be completed on the day of pesticide use. In addition, pest surveillance records will be maintained to help verify the need for pesticide treatments. Annual reports of any applications must be sent to DEC.

Posting/Notification of Policy

In compliance with the New York State Clean Indoor Air Act, the District will prominently post its Smoking/Tobacco Use policy and signs prohibiting all forms of tobacco products in District buildings and other appropriate locations; and will supply a copy upon request to any current or prospective employee. The District will also designate a school official to tell individuals who smoke in a non-smoking area that they are in violation of the New York State Public Health Law, Education Law, the federal Pro-Children Act of 1994, and District policy.

The District will also ensure that this policy is communicated to staff, students, parents/guardians, volunteers, and visitors as deemed appropriate in order to orient all persons to the District's "No Smoking" Policy and environment.

SUBJECT: ENERGY CONSERVATION AND RECYCLING IN THE SCHOOLS

The Board of Education recognizes the importance of energy conservation and is committed to the analysis, development, and initiation of conservation measures throughout the District for the purpose of reducing energy consumption, particularly in these times of declining levels of natural energy resources and increasing cost of these resources. The Board maintains an aggressive and responsible program to reduce consumption of energy by its facilities and to provide education to both staff and students on the conservation of energy.

The District is committed to an energy conservation program that addresses not only capital-related energy projects but ongoing, day-to-day energy related issues as well. All staff are urged to participate actively in a program of energy conservation by assisting in the efforts to eliminate the wasteful use of energy in the operation of the District's buildings. Cooperation will be required of each employee and each student to achieve a meaningful energy conservation program that results in a more efficient use of energy resources. Involvement of staff and students is essential to a successful program of energy conservation.

Energy Manager

The Assistant Superintendent for Administration is designated as the Energy Manager of the District and he/she shall report directly to the Board of Education and the Superintendent, or their designee, on matters pertaining to energy conservation.

Energy Conservation Task Force

The Board of Education further directs the Superintendent to establish an energy conservation task force consisting of at least two Board members, the Superintendent, the Assistant Superintendent for Administration, the Director of Facilities and Operations, and such other individual(s) as may be deemed necessary. The duties of this task force will include, but are not limited to, the following:

- a) Analyzing the District's energy consumption patterns and cost data;
- b) Selecting and recommending to the Board an energy audit or technical assistance study to determine where the District can save;
- c) Consider financing energy improvements with an energy performance contract. A technical assistance study can evaluate a proposed performance contract before the District enters into an agreement;
- d) Consider cost savings from cooperative purchasing arrangements with other municipalities and school districts;

(Continued)

SUBJECT: ENERGY CONSERVATION AND RECYCLING IN THE SCHOOLS (Cont'd.)

- e) Work with outside consultants and/or staff members to recommend and evaluate energy saving ideas including, but not limited to, technology power management, lighting changes, HVAC changes; and
- f) Evaluate and make recommendations about the energy efficiency of District buildings through periodic building inspections and surveys.

Progress reports on the implementation of energy conservation measures will be made to the Board at least annually.

Minimum Indoor Air Temperature

The District will comply with the Property Maintenance Code of New York State, part of the New York State Uniform Fire Prevention and Building Code, which requires that indoor occupiable work spaces be maintained at a minimum temperature of 65 degrees from September 14 to May 31 during the period the spaces are occupied. There are exceptions for areas of vigorous physical activities such as gymnasiums as well as processing spaces such as coolers or freezers. However, by law, code or regulation there is no maximum temperature specified. Ventilation requirements only require fresh air, not cool air-conditioning.

Long-Range Considerations

The energy conservation program is an important factor to be considered in planning effective use of school facilities, new construction, remodeling or rehabilitation programs, and modernization projects.

Recycling

The Board is committed to protecting and improving the environment by recycling commonly used materials, waste prevention strategies and purchasing recycled products when feasible. The Superintendent will create a task force charged with developing a program for the source separation and segregation of recyclable or reusable materials in the District. This District-wide recycling plan shall include:

- a) A conservation education program to teach students about their social responsibility for preserving our resources, and involvement of all students and personnel in a comprehensive effort to reduce, reuse and recycle waste materials;
- b) A concerted effort to purchase recycled and biodegradable items;
- c) Separation of waste into appropriate categories for the purposes of recycling; and

SUBJECT: SCHOOL FOOD SERVICE PROGRAM (LUNCH AND BREAKFAST)**School Food Service Program (Lunch and Breakfast)**

The Board has entered into an agreement with the New York State Education Department to participate in the National School Lunch Program, School Breakfast Program and/or Special Milk Program to receive commodities donated by the Department of Agriculture and to accept responsibility for providing free and reduced price meals to elementary and secondary students in the schools of the District.

The Superintendent or his/her designee shall have the responsibility to carry out the rules of the School Lunch and Breakfast Programs. The determination of which students are eligible is the responsibility of the Reviewing Official and Verification Official or the Office of Temporary and Disability Assistance of the Department of Social Services. Appeals regarding eligibility should be submitted to the Hearing Official of the District.

Free or reduced price meals may be allowed for qualifying students attending District schools upon receipt of a written application from the student's parent or guardian or a "Direct Certification" letter from the New York State Office of Temporary and Disability Assistance (OTDA). Applications will be provided by the School District to all families.

School officials must also determine eligibility for free/reduced meals and milk by using the Direct Certification Matching Process, a dataset supplied by the Office of Temporary and Disability Assistance, and made available by the State Education Department. Any student receiving federal assistance through Supplemental Nutrition Assistance Program (SNAP) or Temporary Assistance to Needy Families (TANF) is automatically eligible for free meals and milk. There is no need for families to complete further applications. School Districts shall notify parents or guardians of such eligibility, giving them the opportunity to decline free meals and milk if they so choose.

Procedures for the administration of the free and reduced price meal program of this School District will be the same as those prescribed in current state and federal laws and regulations.

Child Nutrition Program/Charging Meals

Although not required by law, because of the District's participation in the Child Nutrition Program, the Board of Education approves the establishment of a system to allow a student to charge a meal. The Board authorizes the Superintendent to develop rules which address:

- a) What can be charged;
- b) The limit on the number of charges per student;
- c) The system used for identifying and recording charged meals;

(Continued)

SUBJECT: SCHOOL FOOD SERVICE PROGRAM (LUNCH AND BREAKFAST) (Cont'd.)

- d) The system used for collection of repayments; and
- e) Ongoing communication of the policy to parents and students.

Restriction of Sweetened Foods in School

The sale of sweetened foods will be prohibited from the beginning of the school day until the end of the last scheduled meal period.

Sweetened foods consist of sweetened soda water, chewing gum, candy, including hard candy, jellies, gum, marshmallow candies, fondant, licorice, spun candy, candy coated popcorn, and water ices except those which contain fruit or fruit juices.

Restrictions on Sale of Milk Prohibited

Schools that participate in the National School Lunch Program may not directly or indirectly restrict the sale or marketing of fluid milk products at any time or in any place on school premises or at school-sponsored events.

Food Substitutions for Children with Disabilities

Federal regulations governing the operation of Child Nutrition Programs, Part B of the Individuals with Disabilities Education Act, and Section 504 of the Rehabilitation Act of 1973 require that children with disabilities be offered the opportunity to participate in all academic and nonacademic activities including the school nutrition programs. The District will make reasonable accommodations to those children with disabilities whose disabilities restrict their diets, such as providing substitutions and/or modifications in the regular meal patterns. Such meal substitutions for students with disabilities will be offered at no extra charge. A student with a disability must be provided substitutions in food when that need is supported by a statement signed by a physician attesting to the need for the substitutions and recommending alternate foods.

However, the school food service is not required to provide meal services (for example, School Breakfast Program) to students with disabilities when the meal service is not normally available to the general student body, unless a meal service is required under the student's individualized education program (IEP) or Section 504 Accommodation Plan as mandated by a physician's written instructions.

Food Substitutions for Nondisabled Children

Though not required, the District will also allow substitutions for non-disabled children who are unable to consume the regular meal because of medical or other special dietary needs if the request is supported by a statement signed by a recognized medical authority.

(Continued)

SUBJECT: SCHOOL FOOD SERVICE PROGRAM (LUNCH AND BREAKFAST) (Cont'd.)

The District may also allow substitutions for fluid milk with a non-dairy beverage that is nutritionally equivalent (as established by the Secretary of Agriculture) to fluid milk and meets nutritional standards for students who are unable to consume fluid milk because of medical or other special dietary needs if the request is supported by a statement signed by a recognized medical authority or by the student's parent/legal guardian.

Prohibition Against Adults Charging Meals

Adults should pay for their meals at the time of service or set up pre-paid accounts.

HACCP-Based Food Safety Program

Schools participating in the National School Lunch and/or School Breakfast programs are required to implement a food safety program based on Hazard Analysis and Critical Control Point (HACCP) principles. The District must develop a written food safety program for each of its food preparation and service facilities that is based on *either* traditional HACCP principles *or* the "Process Approach" to HACCP. (The "Process Approach" simplifies traditional HACCP by grouping foods according to preparation process and applying the same control measures to all menu items within the group, rather than developing an HACCP plan for each item.) Regardless of the implementation option that is selected, the District's written food safety program must also include: critical control points and critical limits; monitoring procedures; corrective actions; verification procedures; recordkeeping requirements; and periodic review and food safety program revision.

SUBJECT: WELLNESS

The District is committed to providing a school environment that promotes and protects children's health, well-being, and the ability to learn by fostering healthy eating and physical activity before, during, and after the school day.

The District has established a wellness committee that meets at least four times per year to establish goals for, and oversee the development of, the District's local wellness policy. The Committee will make policy recommendations for review and adoption by the Board. The District Wellness Committee includes, but is not limited to, representatives from each of the following groups:

- a) Parents and caregivers;
- b) Students;
- c) Physical Education teachers;
- d) School health professionals;
- e) District food service program;
- f) School Board;
- g) School administrators;
- h) General Education teachers; and
- i) Members of the public.

The District Wellness Committee will also be responsible for assessing current activities, programs, and policies available in the District, and providing mechanisms for implementation, evaluation, and revision of this policy. In so doing, the Wellness Committee will evaluate and make recommendations which reflect the specific needs of the District and its students.

The Superintendent will designate a District Wellness Coordinator to convene the District Wellness Committee in order to facilitate the development of, and any proposed updates to, the District's wellness policy, and will also ensure the District's compliance with this policy.

Goals to Promote Student Wellness

The District seeks to ensure all of its students obtain the knowledge and skills necessary to make nutritious food selections and enjoy life-long physical activity. To this end, the District sets forth the following goals relating to nutrition promotion and education, physical activity, and other school-based activities.

(Continued)

SUBJECT: WELLNESS (Cont'd.)Nutrition Promotion and Education

The District will model and encourage healthy eating by all students by engaging in nutrition education and promotion by:

- a) Nutrition education will be integrated within the comprehensive health education curriculum and other instructional areas, as appropriate, and taught at every grade level, K through 12. Nutrition education will follow applicable New York State Standards and be designed to help students acquire:
 1. Nutrition knowledge, including, but not limited to: the benefits of healthy eating; essential nutrients; nutritional deficiencies; principles of healthy weight management; the use and misuse of dietary supplements; and safe food storage, handling, and preparation.
 2. Nutrition-related skills, including, but not limited to: planning healthy meals; understanding and using food labels; critically evaluating nutrition information, misinformation, and commercial food advertising; assessing personal eating habits; and setting and achieving goals related to these concepts.
- b) Marketing and Promotion
 1. The District will promote nutrition education activities that involve parents, students, and the community.
 2. The District will promote healthy food and beverage choices for all students and encourage participation in school meal programs. This will occur by using Smarter Lunchroom techniques which guide students toward healthful choices and ensuring that 100% of foods and beverages promoted to students meet the Smart Snacks in School nutrition standards, which can be found on the United States Department of Agriculture's (USDA) official website.
 3. The District will promote school and community awareness of this policy through various means, such as publication on the District website.
 4. The District will encourage and promote wellness through social media, newsletters, and an annual family wellness event.
 5. Marketing and advertising of foods and beverages on school campuses during the school day will be consistent with nutrition education and health promotion. As such, schools will restrict food and beverage marketing to the promotion of those foods and beverages that meet the nutrition standards set forth by the Healthy, Hunger-Free Kids Act's "Smart Snacks in Schools" Rule and that are consistent with this policy.

(Continued)

SUBJECT: WELLNESS (Cont'd.)

6. The District is cognizant of the fact that certain scoreboards, signs, and other durable equipment it employs may market foods and beverages in a way that is inconsistent with the aims of this policy. While the immediate replacement of this equipment is not required, the District will replace or update this equipment over time to ensure the message it delivers to students regarding nutrition, health, and well-being is consistent. As the District reviews existing contracts, or considers new contracts, resulting decisions should reflect the marketing guidelines established by this policy.
- c) Additional provisions
1. Parents and teachers will be provided with a list of healthy party ideas, including non-food celebration ideas.
 2. Parents will be provided with a list of classroom snacks and beverages that meet Smart Snacks nutrition standards.
 3. School personnel are strongly discouraged from using food as a reward or withholding food as punishment under any circumstance; teachers and other appropriate school staff will be provided with a list of alternative ways to reward students.
 4. District staff will be encouraged to model healthy eating, drinking, and physical activity behaviors for students.

Physical Activity

- a) The District will provide opportunities for every student to participate in physical education and, in an effort to comply with the recommendation that children and adolescents participate in at least 60 minutes of physical activity each day, is also committed to providing opportunities for physical activity before, during, and after school. In doing so, the District aims to promote among students, staff, and community members the development of knowledge and skills for specific physical activities, the maintenance of physical fitness, regular participation in physical activity, and an understanding of the short-term and long-term benefits from a physically active and healthy lifestyle. Physical activity opportunities will be in addition to, not in lieu of, physical education and will not be used as a punishment for students, but rather another means by which students may develop or maintain a healthy and active lifestyle.

(Continued)

SUBJECT: WELLNESS (Cont'd.)

- b) The District will ensure that the following standards are met to achieve its goals relative to physical education and physical activity:
1. The District will have a Board-approved Physical Education Plan on file with the New York State Education Department that meets or exceeds the requirements set forth in Section 135.4 of the Commissioner's regulations.
 2. The District recognizes the importance of physical education classes in providing students with meaningful opportunities for physical exercise and development. Consequently, the District will ensure:
 - (a) All physical education classes are taught or supervised by a certified physical education teacher;
 - (b) All physical education staff receive professional development relevant to physical education on a yearly basis;
 - (c) Interscholastic sports, intramural sports, and recess do not serve as substitutes for a quality physical education program;
 - (d) Students are afforded the opportunity to participate in moderate to vigorous activity for at least 50% of physical education class time;
 - (e) It provides adequate space and equipment for physical education and conforms to all applicable safety standards;
 - (f) An age-appropriate, sequential physical education curriculum consistent with national and state standards for physical education is implemented, with a focus on students' development of motor skills, movement forms, and health-related fitness;
 - (g) A physical and social environment is provided that encourages safe and enjoyable activity for all students;
 - (h) Activities or equipment are adapted to meet the needs of students who are temporarily or permanently unable to participate in the regular program of physical education. In doing so, the District will abide by specific provisions in 504 Plans and/or individualized education programs (IEP). To that end, the Committee on Special Education (CSE) will ensure that a certified physical education teacher participates in the development of a student's IEP, if the student may be eligible for adapted physical education;

(Continued)

SUBJECT: WELLNESS (Cont'd.)

- (i) All students, including students in need of adaptive physical education, will be encouraged to participate in physical fitness programs and competitions.
3. All students will be required to fulfill the physical education requirements set forth in the Commissioner's regulations as a condition of graduating from the District's schools.
- c) All classroom teachers, and particularly those engaged in the instruction of K through 5 students, are strongly encouraged to incorporate into the school day short breaks for students that include physical activity, especially after long periods of inactivity. Teachers are encouraged to incorporate kinesthetic learning approaches into core learning subjects when possible so as to limit sedentary behavior during the school day. Additionally, all elementary students will be offered one daily period of recess for a minimum of 20 minutes. This requirement will not apply on days where students arrive late, leave early, or are otherwise on campus for less than a full day. Outdoor recess will be offered when weather permits. In the event that indoor recess is necessary, it will be offered in a place that accommodates moderate to vigorous physical activity.
- d) Physical activity during the school day, including, but not limited to, recess or classroom activity breaks, will not be withheld for disciplinary action unless the student is a danger to him or herself or others. Classroom teachers will be provided with a list of ideas for alternative ways to discipline students. Recess, physical education, or other physical activity time will not be cancelled for instructional make up time.

Other School-Based Activities

The District is committed to establishing a school environment that is conducive to healthy eating and physical activity for all. The District will, therefore, adopt the following standards:

- a) Federal School Meal Programs
 1. The District will participate to the maximum extent practicable in available federal school meal programs (including the School Breakfast Program (SBP), National School Lunch Program (NSLP), and Summer Food Service Program). Food served through these programs will meet all applicable federal and state standards.
 2. The District will ensure that food service directors, managers, and staff are provided with annual professional development in the areas of food and nutrition consistent with USDA Professional Standards for State and Local Nutrition Programs. District food service staff will meet with students in grades 4 through 12 twice annually to solicit feedback on the school breakfast and/or school lunch program(s).

(Continued)

SUBJECT: WELLNESS (Cont'd.)

b) Access to School Nutrition Programs

The District will utilize a system of student payment that ensures all eligible students have access to free/reduced meals in a non-stigmatizing manner.

c) Meal Environment

The District will ensure:

1. All students have a scheduled lunch period;
2. Lunch times are scheduled near the middle of the school day;
3. Students are given adequate time to eat healthy meals;
4. Students and staff have access to free, safe, and fresh drinking water throughout the school day and where school meals are served.

d) Community Access to District Facilities for Physical Activities

School grounds and facilities will be available to students, staff, community members and organizations, and agencies offering physical activity and nutrition programs consistent with District policy, including provisions regarding conduct on school grounds and administrative approval of use by outside organizations.

e) Community Partnerships

The District will continue relationships with community partners including Broome County Health Department, City of Binghamton Parks and Recreation and Catholic Youth Organization in support of the implementation of this policy. Existing and new community partnerships will be evaluated to ensure they are consistent with this policy and its goals.

(Continued)

SUBJECT: WELLNESS (Cont'd.)

f) Community Involvement, Outreach, and Communications

The District will use its official website, along with other electronic and non-electronic means, to notify parents and the public, in culturally and linguistically appropriate ways, about the content, implementation of, and updates to this policy as well as how to become involved and support this policy. The District will use these same means to inform the community about the availability of the annual and triennial reports relative to this policy.

g) Before and After School Activities

The District will offer opportunities for students to participate in physical activity before and/or after the school day through various methods, such as physical activity clubs, intramurals, and interscholastic sports.

h) Active Transport

The District supports active transport to and from school, i.e. walking or biking. The District will encourage this behavior by securing storage facilities for bicycles and equipment and instructing students on walking and bicycling safety.

Nutrition Guidelines

In an effort to encourage healthy life-long eating habits by providing foods that are high in nutrients, low in saturated fat and added sugars, have zero grams' trans-fat per serving, and are of moderate portion size, the District Wellness Committee recommends nutrition standards to be set for all foods and beverages available on school campus. For purposes of this policy, the school day is defined as the period from the midnight before, to 30 minutes after the end of the official school day.

School Meals

All schools within the District participate in the USDA child nutrition programs, including the NSLP and the SBP. School meals will, at a minimum, meet the program requirements and nutrition standards of these programs. The District is committed to ensuring that meals through the SBP and NSLP are accessible to all students, are served in sanitary settings, are appealing to children, and meet or exceed those nutrition requirements established by local, state, and federal law and regulation. The USDA nutrition standards are available at:

<http://www.fns.usda.gov/school-meals/nutrition-standards-school-meals>.

(Continued)

SUBJECT: WELLNESS (Cont'd.)Fundraising

- a) All foods and beverages sold as or during a fundraiser during the school day will meet, or exceed, the nutritional requirements listed in the USDA Healthy, Hunger-Free Kids Act "Smart Snacks in Schools" Rule; these foods and beverages sold as fundraisers will not be sold until the end of the last lunch period, so as not to compete with the NSLP.
- b) School-sponsored fundraisers conducted outside of the school day will be encouraged to support the goals of this policy by promoting the sale of healthy food items (fresh fruit and produce) and/or non-food items, such as water bottles, plants, etc., and by promoting events involving physical activity.
- c) All school-sponsored fundraisers must be approved by the appropriate building principal prior to being conducted.

Competitive Foods and Beverages Sold and Served to Students During the School Day

Competitive foods--which include all foods and beverages sold to students outside of the school meal programs, on the school campus in student accessible areas, and at any time during the school day -- will follow, at a minimum, the nutrition standards specified by the Healthy, Hunger-Free Kids Act. These standards will apply to all foods and beverages sold individually and outside of the reimbursable school meal, including vending machines, school stores, and cafeteria a la carte lines.

Competitive Foods and Beverages Served to Students During the School Day

The District will encourage staff and parents to provide students with healthy options at any event where foods and beverages are served to students (i.e., classroom and school-wide celebrations and rewards).

Foods and Beverages Sold or Served at Events Outside of the School Day

- a) All foods and beverages sold or served at school-sponsored events will be in serving sizes which are in accordance with recommended dietary guidelines and/or nutrition standards.
- b) At events where food and beverages are sold, 50% of items sold must meet the USDA Healthy, Hunger-Free Kids Act "Smart Snacks in Schools" Standards.

Professional Development

All school nutrition program directors, managers, and staff will meet or exceed hiring and annual continuing education and training requirements as specified in the USDA Professional Standards for School Nutrition Professionals. In order to locate the training that best fits their learning needs, school nutrition personnel will refer to the USDA's Professional Standards for School Nutrition Standards website.

(Continued)

SUBJECT: WELLNESS (Cont'd.)**Implementation and Evaluation of the Wellness Policy**

- a) The District will establish an implementation and evaluation plan for this policy in order to monitor its effectiveness and the possible need for modification over time. Arts and Cultural Affairs Law Section 57.19
8 New York Code of Rules and Regulations (NYCRR) Part 185

Adopted: 7/6/16

SUBJECT: DISPOSAL OF CONSUMER REPORT INFORMATION AND RECORDS

In accordance with the Federal Trade Commission's (FTC) "Disposal Rule," and in an effort to protect the privacy of consumer information, reduce the risk of fraud and identity theft, and guard against unauthorized access to or use of the information, the School District will take appropriate measures to properly dispose of sensitive information (i.e., personal identifiers) contained in or derived from consumer reports and records. Any employer who uses or possesses consumer information for a business purpose is subject to the Disposal Rule. According to the FTC, the standard for proper disposal of information derived from a consumer report is flexible, and allows the District to determine what measures are reasonable based on the sensitivity of the information, the costs and benefits of different disposal methods, and changes in technology.

The term "*consumer report*" shall include information obtained from a consumer reporting company that is used - or expected to be used - in establishing a consumer's eligibility for employment or insurance, among other purposes. The term "*employment purposes*" when used in connection with a consumer report means a report used for the purpose of evaluating a consumer for employment, promotion, reassignment or retention as an employee.

The FTC Disposal Rule defines "*consumer information*" as "any record about an individual, whether in paper, electronic, or other form, that is a consumer report or is derived from a consumer report. Consumer information also means a compilation of such records. Consumer information does not include information that does not identify individuals, such as aggregate information or blind data."

Information Covered by the Disposal Rule

The FTC has not included a rigid definition of the kinds of information that would be considered to identify particular individuals. In accordance with FTC guidance, there are a variety of personal identifiers beyond simply a person's name that would bring information within the scope of the Disposal Rule, including, but not limited to, a social security number, driver's license number, phone number, physical address, and email address. Depending upon the circumstances, data elements that are not inherently identifying can, in combination, identify particular individuals.

"Proper" Disposal

The FTC Disposal Rule defines "*dispose*," "*disposing*," or "*disposal*," as:

- a) "The discarding or abandonment of consumer information," or
- b) "The sale, donation, or transfer of any medium, including computer equipment, upon which consumer information is stored."

(Continued)

**SUBJECT: DISPOSAL OF CONSUMER REPORT INFORMATION AND RECORDS
(Cont'd.)**

The District will utilize disposal practices that are reasonable and appropriate to prevent the unauthorized access to - or use of - information contained in or derived from consumer reports and records. Reasonable measures to protect against unauthorized access to or use of consumer information in connection with District disposal include the following examples. These examples are not exclusive or exhaustive methods for complying with the Disposal Rule.

- a) Burning, pulverizing, or shredding of papers containing consumer information so that the information cannot practicably be read or reconstructed.
- b) Destroying or erasing electronic media containing consumer information so that the information cannot practicably be read or reconstructed.
- c) After due diligence, entering into and monitoring compliance with a contract with another party engaged in the business of record destruction to dispose of material, specifically identified as consumer information, in a manner consistent with the Disposal Rule. In this context, due diligence could include:
 1. Reviewing an independent audit of the disposal company's operations and/or its compliance with the Disposal Rule;
 2. Obtaining information about the disposal company from several references or other reliable sources;
 3. Requiring that the disposal company be certified by a recognized trade association or similar third party;
 4. Reviewing and evaluating the disposal company's information security policies or procedures;
 5. Taking other appropriate measures to determine the competency and integrity of the potential disposal company; or
 6. Requiring that the disposal company have a certificate of registration from the New York Department of State issued on or after October 1, 2008.
- d) For persons (as defined in accordance with the Fair Credit Reporting Act) or entities who maintain or otherwise possess consumer information through their provision of services directly to a person subject to the Disposal Rule, monitoring compliance with policies and procedures that protect against unauthorized or unintentional disposal of consumer information, and disposing of such information in accordance with examples a) and b) above.

SUBJECT: INFORMATION SECURITY BREACH AND NOTIFICATION

The School District values the protection of private information of individuals in accordance with applicable law and regulations. Further, the District is required to notify affected individuals when there has been or is reasonably believed to have been a compromise of the individual's *private information* in compliance with the Information Security Breach and Notification Act and Board policy.

- a) "*Private information*" shall mean ****personal information** in combination with any one or more of the following data elements, when either the personal information or the data element is not encrypted or encrypted with an encryption key that has also been acquired:
1. Social security number;
 2. Driver's license number or non-driver identification card number; or
 3. Account number, credit or debit card number, in combination with any required security code, access code, or password which would permit access to an individual's financial account.

"*Private information*" does not include publicly available information that is lawfully made available to the general public from federal, state or local government records.

****"Personal information"** shall mean any information concerning a person which, because of name, number, symbol, mark or other identifier, can be used to identify that person.

- b) "*Breach of the security of the system,*" shall mean unauthorized acquisition or acquisition without valid authorization of computerized data which compromises the security, confidentiality, or integrity of personal information maintained by the District. Good faith acquisition of personal information by an employee or agent of the District for the purposes of the District is not a breach of the security of the system, provided that private information is not used or subject to unauthorized disclosure.

Determining if a Breach Has Occurred

In determining whether information has been acquired, or is reasonably believed to have been acquired, by an unauthorized person or person without valid authorization, the District may consider the following factors, among others:

- a) Indications that the information is in the physical possession or control of an unauthorized person, such as a lost or stolen computer or other device containing information; or
- b) Indications that the information has been downloaded or copied; or

(Continued)

SUBJECT: INFORMATION SECURITY BREACH AND NOTIFICATION (Cont'd.)

- c) Indications that the information was used by an unauthorized person, such as fraudulent accounts opened or instances of identity theft reported; or
- d) System failure.

Notification Requirements

- a) For any computerized data owned or licensed by the School District that includes private information, the District shall disclose any breach of the security of the system following discovery or notification of the breach to any New York State resident whose private information was, or is reasonably believed to have been, acquired by a person without valid authorization. The disclosure to affected individuals shall be made in the most expedient time possible and without unreasonable delay, consistent with the legitimate needs of law enforcement, or any measures necessary to determine the scope of the breach and restore the reasonable integrity of the data system. The District shall consult with the State Office of Information Technology Services to determine the scope of the breach and restoration measures.
- b) For any computerized data maintained by the District that includes private information which the District does not own, the District shall notify the owner or licensee of the information of any breach of the security of the system immediately following discovery, if the private information was, or is reasonably believed to have been, acquired by a person without valid authorization.

The notification requirement may be delayed if a law enforcement agency determines that such notification impedes a criminal investigation. The required notification shall be made after the law enforcement agency determines that such notification does not compromise the investigation.

Methods of Notification

The required notice shall be directly provided to the affected persons by one of the following methods:

- a) Written notice;
- b) Electronic notice, provided that the person to whom notice is required has expressly consented to receiving the notice in electronic form; and a log of each such notification is kept by the District when notifying affected persons in electronic form. However, in no case shall the District require a person to consent to accepting such notice in electronic form as a condition of establishing any business relationship or engaging in any transaction;
- c) Telephone notification, provided that a log of each such notification is kept by the District when notifying affected persons by phone; or

(Continued)

SUBJECT: INFORMATION SECURITY BREACH AND NOTIFICATION (Cont'd.)

- d) Substitute notice, if the District demonstrates to the State Attorney General that the cost of providing notice would exceed \$250,000, or that the affected class of subject persons to be notified exceeds 500,000, or that the District does not have sufficient contact information. Substitute notice shall consist of **all** of the following:
1. Email notice when the District has an email address for the subject persons;
 2. Conspicuous posting of the notice on the District's website page, if the District maintains one; and
 3. Notification to major statewide media.

Regardless of the method by which notice is provided, the notice shall include contact information for the notifying District and a description of the categories of information that were, or are reasonably believed to have been, acquired by a person without valid authorization, including specification of which of the elements of personal information and private information were, or are reasonably believed to have been, so acquired.

In the event that any New York State residents are to be notified, the District shall notify the New York State Attorney General (AG), the New York State Department of State, and the New York State Office of Information Technology Services as to the timing, content and distribution of the notices and approximate number of affected persons.

In the event that more than five thousand (5,000) New York State residents are to be notified at one time, the District shall also notify consumer reporting agencies, as defined pursuant to State Technology Law Section 208, as to the timing, content and distribution of the notices and approximate number of affected persons. Such notice shall be made without delaying notice to affected New York State residents. A list of consumer reporting agencies shall be compiled by the State Attorney General and furnished upon request to school districts required to make a notification in accordance with State Technology Law Section 208(2), regarding notification of breach of security of the system for any computerized data owned or licensed by the District that includes private information.

NOTE: Refer also to Policy #5681 -- School Safety Plans

Adopted: 7/6/16

SUBJECT: SCHOOL SAFETY PLANS

The District considers the safety of its students and staff to be of the utmost importance and is keenly aware of the evolving nature of threats to schools. As such, it will address those threats accordingly through appropriate emergency response planning. The District-wide school safety plan and the building-level emergency response plan will be designed to prevent or minimize the effects of serious violent incidents and emergencies and to facilitate the coordination of schools and the District with local and county resources in the event of these incidents or emergencies.

These plans will be reviewed by the appropriate team on at least an annual basis and updated as needed by September 1. Specifically, the Board will make each District-wide school safety plan available for public comment at least 30 days prior to its adoption. The District-wide school safety plans may only be adopted by the Board after at least one public hearing that provides for the participation of school personnel, parents, students, and any other interested parties. Additionally, the District-wide school safety plan will designate the Superintendent or designee as the chief emergency officer responsible for coordinating communication between school staff and law enforcement and first responders, and for ensuring staff understanding of this plan. Similarly, the Superintendent will be responsible for ensuring the completion and yearly updating of building-level emergency response plans.

District-Wide School Safety Plan

District-wide school safety plan means a comprehensive, multi-hazard school safety plan that covers all school buildings of the District, addresses crisis intervention, emergency response and management at the District level, and has the contents as prescribed in Education Law and Commissioner's regulations.

The District-wide school safety plan will be developed by the District-wide school safety team, recommended by the superintendent and approved by the Board. The District-wide team will include, but not be limited to, representatives of the Board, student, teacher, administrator, and parent organizations, school safety personnel, and other school personnel.

The plan will further address, among other items as set forth in Education Law and Commissioner's regulations, how the District will respond to implied or direct threats of violence by students, teachers, other school personnel as well as visitors to the school, including threats by students against themselves (e.g. suicide).

Building-Level School Safety Plans

Building-level emergency response plan means a plan that addresses crisis intervention, emergency response and management at the building level and has the contents as prescribed in Education Law and Commissioner's regulations. As part of this plan, the District will define the chain of command in a manner consistent with the National Incident Management System (NIMS)/Incident Command System (ICS).

(Continued)

SUBJECT: SCHOOL SAFETY PLANS (Cont'd.)

The building-level emergency response plan will be developed by the building-level emergency response team. The building-level emergency response team is a building-specific team appointed by the building principal, in accordance with regulations or guidelines prescribed by the Board. The building-level team will include, but not be limited to, representatives of teacher, administrator, and parent organizations, school safety personnel and other school personnel, community members, law enforcement officials, fire officials, or other emergency response agencies, and any other representatives the Board deems appropriate.

Training Requirement

The District will submit certification to the New York State Education Department that all District and school staff have received annual training on the emergency response plan, and that this training included components on violence prevention and mental health. New employees hired after the start of the school year will receive training within 30 days of hire, or as part of the District's existing new hire training program, whichever is sooner.

Filing/Disclosure Requirements

The District will file a copy of its District-wide school safety plan and any amendments with the Commissioner of Education no later than 30 days after its adoption. A copy of each building-level emergency response plan and any amendments will be filed with the appropriate local law enforcement agency and with the state police within 30 days of its adoption. Building-level emergency response plans will be kept confidential and are not subject to disclosure under the Freedom of Information Law (FOIL) or any other provision of law.

**SUBJECT: CARDIAC AUTOMATED EXTERNAL DEFIBRILLATORS (AEDs) IN
PUBLIC SCHOOL FACILITIES**

The School District shall provide and maintain on-site in each instructional school facility functional cardiac automated external defibrillator (AED) equipment as defined in Public Health Law Section 3000-b for use during emergencies. Each such facility shall have sufficient automated external defibrillator equipment available to ensure ready and appropriate access for use during emergencies in quantities and types as deemed by the Commissioner of Education, in consultation with the Commissioner of Health. Determination of the quantity and placement of AEDs must be made with consideration of at least the factors enumerated in Commissioner's Regulations. An instructional school facility means a building or other facility maintained by the School District where instruction is provided to students pursuant to its curriculum.

Whenever an instructional School District facility is used for a school-sponsored or school-approved curricular or extracurricular event or activity and whenever a school-sponsored athletic contest is held at any location, the public school officials and administrators responsible for such school facility or athletic contest shall ensure that AED equipment is provided on-site and that there is present during such event, activity or contest at least one staff person who is trained in accordance with Public Health Law in the operation and use of an AED. School-sponsored or school-approved curricular or extracurricular events or activities mean events or activities of the School District that are, respectively, associated with its instructional curriculum or otherwise offered to its students. A school-sponsored athletic contest means an extraclass intramural athletic activity of instruction, practice and competition for students in grades 4 through 12 consistent with Commissioner's Regulations Section 135.4.

Where a school-sponsored competitive athletic event is held at a site other than a School District facility, School District officials shall assure that AED equipment is provided on-site by the sponsoring or host district and that at least one staff person who is trained, in accordance with Public Health Law, in the operation and use of the AED is present during such athletic event. A school-sponsored competitive athletic event means an extraclass interscholastic athletic activity of instruction, practice and competition for students in grades 7 through 12 consistent with Commissioner's Regulations Section 135.4.

School District facilities and District staff responsible for carrying out the duties enumerated in Education Law Section 917 are deemed a "public access defibrillation provider" as defined pursuant to Public Health Law Section 3000-b and subject to the Public Health Law requirements and limitations.

Therefore, it is the policy of our School District to provide proper training requirements for District AED users, to ensure the immediate calling of 911 and/or the community equivalent ambulance dispatch entity whenever the AED is used, to ensure ready identification of the location of the AED units as enumerated in the District's Public Access Defibrillation Collaborative Agreement.

(Continued)

**SUBJECT: CARDIAC AUTOMATED EXTERNAL DEFIBRILLATORS (AEDs) IN
PUBLIC SCHOOL FACILITIES (Cont'd.)**

The District will provide for regular maintenance and checkout procedures of the AED unit(s) which meet or exceed manufacturer's recommendations. Appropriate documentation will be maintained in accordance with law and/or regulation. Further, the District will participate in the required Quality Improvement Program as determined by the Regional Emergency Medical Services Council.

The District shall post a sign or notice at the main entrance to the facility or building in which the AED unit(s) is stored, indicating the exact location where the unit(s) is stored or maintained on a regular basis.

Pursuant to Public Health Law Sections 3000-a and 3000-b, the School District (as a public access defibrillation provider), or any employee or other agent of the School District who, in accordance with the provisions of law, voluntarily and without expectation of monetary compensation renders emergency medical or first aid treatment using an AED to a person who is unconscious, ill or injured, shall not be liable for damages for injury or death unless caused by gross negligence.

**SUBJECT: FIRE AND EMERGENCY DRILLS, BOMB THREATS, AND BUS
EMERGENCY DRILLS****Fire and Emergency Drills**

The administration of each school building will instruct and train students on appropriate emergency responses, through fire and emergency drills, in the event of a sudden emergency.

Fire and emergency drills will be held at least 12 times in each school year; eight of these will be evacuation drills and will be completed by December 31. Four of these eight required drills will be through use of the fire escapes on buildings where fire escapes are provided or identified secondary exits, and the other four drills will be lock-down drills. Drills will be conducted at different times of the school day. Students will also be instructed in the procedures to be followed in the event that a fire occurs during the regular school lunch period or assembly, however, this additional instruction may be waived if a drill is held during the regular lunch period or assembly.

Summer School

At least two additional drills will be held during summer school in buildings where summer school is held, and one of these drills will be held during the first week of summer school.

After-School Programs, Events, or Performances

The building principal or designee will require those in charge of after-school programs, events, or performances attended by any individuals unfamiliar with that school building, to announce at the beginning of these programs the procedures to be followed in the event of an emergency.

Bomb ThreatsSchool Bomb Threats

A bomb threat, even if later determined to be a hoax, is a criminal act. No bomb threat should be treated as a hoax when it is first received. Upon receiving any bomb threat, the school has an obligation and responsibility to ensure the safety and protection of the students and other occupants of the school. This obligation takes precedence over a search for a suspect object. Prudent action is dependent upon known information about the bomb threat-location, if any; time of detonation; etc. Specific procedures as to appropriate responses as a result of a bomb threat can be located in the building-level emergency response plan, as required by relevant law and regulation.

Police Notification and Investigation

Appropriate law enforcement agencies must be notified by the building administrator or designee of any bomb threat as soon as possible after receiving the threat. Law enforcement officials will contact, as the situation requires, fire and/or county emergency coordinators according to the county emergency plan.

(Continued)

**SUBJECT: FIRE AND EMERGENCY DRILLS, BOMB THREATS, AND BUS
EMERGENCY DRILLS (Cont'd.)**Implementation

The Superintendent or designee will develop written procedures to implement the terms of this policy. Additionally, these procedures will be incorporated in the District-wide school safety plan and the building-level emergency response plan, with provisions to provide written information to all staff and students regarding emergency procedures by October 1 of each school year, an annual drill to test the emergency response procedures under each of its building-level emergency response plans; and the annual review of the District-wide and building-level emergency response plans, along with updates as necessary, by September 1, as mandated by law or regulation.

Bus Emergency Drills

The administration will conduct a minimum of three emergency drills to be held on each school bus during the school year. The first drill will be conducted during the first seven days of school, the second drill between November 1 and December 31, and the third drill between March 1 and April 30. No drills will be conducted when buses are on routes.

Students who ordinarily walk to school will also be included in the drills. Students attending public and nonpublic schools who do not participate in regularly scheduled drills will also be provided drills on school buses, or as an alternative, will be provided classroom instruction covering the content of these drills.

Each drill will include practice and instruction in the location, use, and operation of the emergency door, fire extinguishers, first-aid equipment, and windows as a means of escape in the event of fire or accident. Similarly, students will be instructed on all topics mandated by relevant sections of the Education Law and Commissioner's regulations, including, but not limited to, the following:

- a) Safe boarding and exiting procedures with specific emphasis on when and how to approach, board, disembark, and move away from the bus after disembarking;
- b) Advancing at least ten feet in front of the bus before crossing the highway after disembarking; and
- c) Orderly conduct as bus passengers.

Instruction on Use of Seat Belts

When students are transported on school buses equipped with seat safety belts, the District will ensure that all students who are transported on any school bus owned, leased, or contracted for by the District will receive instruction on the use of seat safety belts. This instruction will be provided at least three times each year to both public and nonpublic school students who are so transported and will include, but not be limited to:

The Board wishes to minimize these deaths by the use of opioid overdose prevention measures. The District is enrolled as a registered program with the New York State Department of Health (NYSDOH). SUBJECT: COMMUNICABLE DISEASES

Whenever, upon investigation and evaluation by the Director of School Health Services or other health professionals acting upon direction or referral of the director, a student in the public schools shows symptoms of any communicable or infectious disease reportable under the public health law that imposes a significant risk of infection of others in the school, he/she shall be excluded from the school and sent home immediately, in a safe and proper conveyance. The Director of School Health Services shall immediately notify a local public health agency of any disease reportable under the public health law.

Following absence on account of illness or from unknown cause, the Director of School Health Services may examine each student returning to a school without a certificate from a local public health officer, a duly licensed physician, physician assistant, or nurse practitioner.

The Director of School Health Services, or other health professionals acting upon direction or referral of the director, may make evaluations of teachers and any other school employees, school buildings and premises as, in their discretion, they may deem necessary to protect the health of the students and staff.

The Board of Education contends that a student shall not be denied the right to attend school or continue his/her education nor shall an employee be denied the right to continue his/her employment who has been diagnosed or identified as having a positive blood test for the antibodies to the Human Immunodeficiency Virus (HIV). The Board further contends that under current law and regulations, the disclosure of confidential HIV-related information shall be strictly limited.

Administrative regulations and procedures shall be developed and implemented by the administration based on recommendations from the New York State Education Department and from consultation with appropriate professional and medical staff in the District.

The Superintendent shall also establish protocols for routine sanitary procedures for dealing with the cleaning and handling of body fluids in school, with special emphasis placed on staff awareness.

SUBJECT: TRANSPORTATION PROGRAM

It is the intent of the Board of Education to comply with the letter and spirit of the New York State Education Law; with the regulations of the Department of Motor Vehicles and of the Department of Transportation and with the Commissioner of Education's regulations and decisions pertinent to student transportation, and these shall govern any questions not covered by specific declaration of policy herein.

The purposes of the transportation program are to transport students to and from school, to transport them for extracurricular activities, to transport them on field trips, and to transport those requiring special services.

The Board of Education recognizes and assumes the responsibility for all aspects of the transportation of children wherein the health and safety of students are involved, for the Board of Education has a legal obligation to safeguard the welfare of bus-riding children.

Scheduling and Routing

Bus routes are authorized by the Board of Education and any requests for a change must be submitted to the Superintendent or his/her designee.

Transportation services shall be provided to meet the needs of the students of the District within specified limits and areas established by the Board of Education. Bus pick-up for elementary and middle school students will be at a designated stop at a time prescribed as part of the bus schedule.

Mileage Limitations

The mileage eligibility for all students (except handicapped students) in private, parochial, and public schools shall be:

- a) Elementary - Grade K-5: One mile from home to school.
- b) Middle - Grade 6-8: One and five tenths (1.5) miles from home to school.
- c) High School - Grades 9-12: Two miles from home to school.

Students shall not transfer from the regularly assigned bus nor change their pick-up drop-off point unless requested in writing by a parent or guardian and approved by the person directing the transportation program.

Bus pick-up for high school students will be at a designated stop as part of the bus schedule for B.C. Transit.

SUBJECT: TRANSPORTATION OF STUDENTS**Requests for Transportation to and from Nonpublic Schools**

The parent or person in parental relation of a parochial or private school child residing in the School District who desires that the child be transported to a parochial or private school outside of the School District during the next school year should submit a written request to the Board of Education no later than April 1 of the preceding year, or within 30 days of moving into the District. No late request of a parent or person in parental relation shall be denied where a reasonable explanation is provided for the delay.

Transportation to Nonpublic Schools on Holidays

When a holiday falls on a Saturday or Sunday, the Board of Education may choose to close on Friday or Monday in observance of the holiday. Schools that close may provide pupil transportation. However, if the District has not shared its calendar and informed nonpublic schools that it will not transport on the optional holiday, the District is required to provide pupil transportation services on that day to nonpublic schools that are open.

Transportation for Nonpublic School Students with Disabilities who are Parentally Placed

For students with disabilities (ages 5 through 21) who are parentally placed in nonpublic schools outside their district of residency, if special education services are to be provided to a student at a site other than the nonpublic school, the school district of location is responsible for providing the special education services, including, as applicable, arranging and providing transportation necessary for the student to receive special education services. The proportionate share of IDEA Part B dollars could be used for such purpose.

The school district of residence remains responsible to provide transportation to parentally placed nonpublic school students from the student's home to the nonpublic school.

Transportation of Students with Disabilities

Students with disabilities in the District shall be transported up to fifty (50) miles (one way) from their home to the appropriate special service or program, unless the Commissioner certifies that no appropriate nonresidential special service or program is available within fifty (50) miles. The Commissioner may then establish transportation arrangements.

Student Information

Any mode of transportation used on a regular basis to transport students with a disability on a regularly scheduled route shall, upon written consent of the parent or person in parental relation, have maintained on such mode of transportation the following information about each student being transported:

(Continued)

SUBJECT: TRANSPORTATION OF STUDENTS (Cont'd.)

- a) Student's name;
- b) Nature of the student's disability;
- c) Name of the student's parent, guardian or person in a position of loco parentis (person in parental relation) and one or more telephone numbers where such person can be reached in an emergency; and/or
- d) Name and telephone number of any other person designated by such parent, guardian or person in a position of loco parentis as a person who can be contacted in an emergency.

Such information shall be used solely for the purpose of contacting such student's parent, guardian, person in a position of loco parentis, or designee in the event of an emergency involving the student, shall be kept in a manner which retains the privacy of the student, and shall not be accessible to any person other than the driver or a teacher acting in a supervisory capacity. In the event that the driver or teacher is incapacitated, such information may be accessed by any emergency service provider for such purpose.

Such information shall be updated as needed, but at least once each school year and shall be destroyed if parental consent is revoked, the student no longer attends such school, or the disability no longer exists.

Herein the term "disability" shall mean a physical or mental impairment that substantially limits one or more of the major life activities of the student, whether of a temporary or permanent nature.

Transportation of Non-Resident Students

Non-resident families must provide their own transportation.

Transportation to School Sponsored Events

Where the District has provided transportation to students enrolled in the District to a school sponsored field trip, extracurricular activity or any other similar event, it shall provide transportation back to either the point of departure or to the appropriate school in the District unless the parent or legal guardian of a student participating in such event has provided the District with written notice, consistent with District policy, authorizing an alternative form of return transportation for such student or unless intervening circumstances make such transportation impractical. In cases where intervening circumstances make transportation of a student back to the point of departure or to the appropriate school in the District impractical, a representative of the School District shall remain with the student until such student's parent or legal guardian has been contacted and informed of the intervening circumstances which make such transportation impractical; and the student has been delivered to his/her parent or legal guardian.

(Continued)

SUBJECT: TRANSPORTATION OF STUDENTS (Cont'd.)**Transportation in Personal Vehicles**

Personal cars of teachers and staff shall not be used to transport students except in the event of extenuating circumstances and authorized by the administration.

Transportation to Childcare Locations

For students attending elementary school and middle school, upon timely written request, transportation will be provided between school and before and/or after school non-licensed or unregistered childcare locations within the attendance zone of the school the child attends. Transportation will also be provided between school and child daycare centers and school age childcare programs licensed or registered pursuant to Social Services Law #290 located anywhere within the School District.

A timely written request must be made by April 1 of the preceding school year in the District. For students entering kindergarten for the first time, a written request must be made either upon registration or within 30 days of establishing residence in the District, whichever is later. Transportation to the designated child care or daycare location must follow a regular weekly schedule. The designated childcare or daycare location must be used every school day.

Transportation to and from childcare locations and daycare centers will only occur if there is no additional cost to the School District for such transportation. In the event that the provision of such transportation will result in additional cost to the District, then the transportation may be eliminated at any time, after ten school days' notice to the parent or guardian of the students receiving such transportation.

The District will not honor requests to commence transportation between childcare and daycare locations or requests to change the designated childcare or daycare locations after the April 1 deadline unless there is no additional cost to the District. This policy shall be reviewed at least annually during April.

SUBJECT: SCHOOL BUS SAFETY PROGRAM

The safe transportation of students to and from school is of primary concern in the administration of the school bus program. All state laws and regulations pertaining to the safe use of school buses shall be observed by drivers, students and school personnel.

To assure the safety and security of students boarding or exiting school buses on school property, it shall be unlawful for a driver of a vehicle to pass a stopped school bus when the red bus signal is in operation.

Use of Cell Phones and Portable Electronic Devices Prohibited

Use of portable electronic devices by a school bus driver at times the vehicle is in operation on the roadway poses a potential safety risk. All school bus drivers are prohibited from using portable electronic devices while the bus is in operation.

Personal cell phones are to be placed in the "off" position when in the possession of the school bus driver while the bus is in operation. Cell phones may be used in case of emergency.

The following terms are defined as:

- a) "Portable electronic device" shall mean any mobile telephone (hand held or "hands free"), personal digital assistant (PDA), portable device with mobile data access, laptop computer, pager, broadband personal communication device, two-way messaging device, electronic game, or portable computing device.
- b) "Using" shall mean holding a portable electronic device while viewing, taking or transmitting images, playing games, or composing, sending, reading, viewing, accessing, browsing, transmitting, saving or retrieving email, text messages, or other electronic data.
- c) "In operation" shall mean that the bus engine is running, whether in motion or not.

The Transportation Supervisor, in cooperation with the Principals, has the responsibility of developing and publishing safety rules to be followed by drivers and passengers, including rules of student conduct. In order to ensure maximum safety to those riding school buses, it is necessary that students and drivers cooperate in this effort. There is no substitute for training to develop safe habits in pedestrian and vehicular traffic.

All buses and other vehicles owned by vendors/contract bus companies with whom the District contracts will have frequent safety inspections and be serviced regularly. The Transportation Supervisor will maintain a comprehensive record of all maintenance performed on each vehicle.

The Board of Education recognizes the need to promote the health and safety of District students and staff and to protect the environment from harmful emissions found in bus and vehicle exhaust. In accordance with Education Law and Commissioner's Regulations, the District will minimize, to the extent practicable, the idling of all school buses and other vehicles owned or leased by the District while such bus or vehicle is parked or standing on school grounds or in the front of any school. This policy also applies to contractor owned and operated school buses under contract with the District.

The District shall ensure that each driver of a school bus or other vehicle owned, leased or contracted for by the District turn off the engine of the bus or vehicle while waiting for passengers to load or off load on school grounds, or while such vehicle is parked or standing on school grounds or in front of or adjacent to any school.

Exceptions

- a) For mechanical work; or
- b) To maintain an appropriate temperature for passenger comfort; or
- c) In emergency evacuations where necessary to operate wheelchair lifts.

Private Vendor Transportation Contracts

All contracts for pupil transportation services between the School District and a private vendor that are entered into on or after August 21, 2008, shall include a provision requiring such vendor's compliance with the provisions of reducing idling in accordance with Commissioner's Regulations Section 156.3(h).

NOTE: Refer also to Policy #5741 -- Drug and Alcohol Testing For School Bus Drivers and Other Safety-Sensitive Employees

Adopted: 7/6/16

SUBJECT: DRUG AND ALCOHOL TESTING FOR SCHOOL BUS DRIVERS AND OTHER SAFETY-SENSITIVE EMPLOYEES

In accordance with federal regulations, employees in safety-sensitive positions as defined in regulations who are required to have and use a commercial drivers license (CDL), are subject to random testing for alcohol, marijuana, cocaine, amphetamines, opiates (including heroin), and phencyclidine (PCP). The District shall adhere to federal law and regulations requiring the implementation of a drug and alcohol testing program for such employees in safety-sensitive positions.

The District shall ensure that vendors/contract bus companies either establish and manage their own program, by contract, or through a consortium for the provision of alcohol and drug testing of employees in safety-sensitive positions. Safety-sensitive employees (SSEs), including school bus drivers and other employees, who drive a vehicle which is designed to transport 16 or more passengers (including the driver), shall be subject to this requirement.

Federal regulations require that school bus drivers and other SSEs be tested for alcohol and drugs at the following times:

- a) Drug testing will be conducted after an offer to hire, but before actually performing safety-sensitive functions for the first time. Such pre-employment testing will also be required when employees transfer to a safety-sensitive position.
- b) Safety-sensitive employees are also subject to a random drug and/or alcohol test on an unannounced basis just before, during or just after performance of safety-sensitive functions.
- c) In addition, testing will be ordered if a trained supervisor has a "reasonable suspicion" that an employee has engaged in prohibited use of drugs and/or alcohol.
- d) There will also be post-accident testing conducted after accidents on employees whose performance could have contributed to the accidents.
- e) Finally, return-to-duty and follow-up testing will be conducted when an individual who has violated the prohibited alcohol and/or drug conduct standards returns to performing safety-sensitive duties. Follow-up tests are unannounced and at least six tests must be conducted in the first 12 months after an employee returns to duty. Follow-up testing may be extended for up to 60 months following return-to-duty.

All employee drug and alcohol testing will be kept confidential and shall only be revealed without the driver's consent to the employer, a substance abuse professional, drug testing laboratory, medical review officer and any other individual designated by law.

(Continued)

SUBJECT: DRUG AND ALCOHOL TESTING FOR SCHOOL BUS DRIVERS AND OTHER SAFETY-SENSITIVE EMPLOYEES (Cont'd.)

The following alcohol and controlled substance-related activities are prohibited by the Federal Highway Administration's drug use and alcohol misuse rules for drivers of commercial motor vehicles and other SSEs:

- a) Reporting for duty or remaining on duty to perform safety-sensitive functions while having an alcohol concentration of 0.04 or greater. If testing shows an alcohol concentration of 0.02 or greater but less than 0.04, the employee must be removed from performing safety-sensitive activities for 24 hours, but no punitive action will be taken by the employer.
- b) Being on duty or operating a commercial motor vehicle (CMV) while the driver possesses alcohol, unless the alcohol is manifested and transported as part of a shipment. This includes the possession of medicines containing alcohol (prescription or over-the-counter), unless the packaging seal is unbroken.
- c) Using alcohol while performing safety-sensitive functions.
- d) New York State law prohibits using alcohol six hours or less before duty.
- e) When required to take a post-accident alcohol test, using alcohol within eight hours following the accident or prior to undergoing a post-accident alcohol test, whichever comes first.
- f) Refusing to submit to an alcohol or controlled substance test required by post-accident, random, reasonable suspicion or follow-up testing requirements.
- g) Reporting for duty or remaining on duty, requiring the performance of safety-sensitive functions, when the SSE uses any controlled substance. This prohibition does not apply when instructed by a physician who has advised the SSE that the substance does not adversely affect the SSE's ability to safely operate a CMV.
- h) Reporting for duty, remaining on duty or performing a safety-sensitive function, if the SSE tests positive for controlled substances.

Drivers and other SSEs who are known to have engaged in prohibited behavior with regard to alcohol misuse or use of controlled substances are subject to disciplinary action and penalties pursuant to the vendors'/contract bus companies' policies and collective bargaining agreements, as well as the sanctions provided for in federal law. SSEs who have engaged in such prohibited behavior shall not be allowed to perform safety-sensitive functions until they are:

- a) Evaluated by a substance abuse professional (SAP).

(Continued)

**SUBJECT: DRUG AND ALCOHOL TESTING FOR SCHOOL BUS DRIVERS AND
OTHER SAFETY-SENSITIVE EMPLOYEES (Cont'd.)**

- b) Complete any requirements for rehabilitation as set by the District and the SAP.
- c) Pass a return-to-duty test with the result below 0.02 if the conduct involved alcohol, or a controlled substance test with a verified negative result if the conduct involved controlled substance use.
- d) The SSE shall also be subject to unannounced follow-up alcohol and controlled substance testing. The number and frequency of such follow-up testing shall be as directed by the SAP, and consist of at least six tests in the first 12 months.

The Superintendent of Schools shall ensure that each vendor/contract bus company receives a copy of District policy, educational materials that explain the requirements of the alcohol and drug testing regulations, and any regulations and/or procedures developed by the District with respect to meeting those requirements. The Superintendent or his/her designee shall ensure that a copy of these materials is distributed to each vendor/contract bus company, and the vendor/bus company shall sign for receipt of all of the above documents, as well as other appropriate personnel, prior to the start of alcohol and controlled substance testing as well as at the beginning of each school year or at the time of hire for any safety-sensitive employees.

The Superintendent or his/her designee can assist vendors/contract bus companies with arrangements for training of all supervisors who may be utilized to determine whether "reasonable suspicion" exists to test a driver for prohibited conduct involving alcohol or controlled substance use/abuse.

Any significant violation of this policy and/or District procedures, and applicable federal and state laws by vendors/contract bus companies and other employees shall result in revocation of their contract for the transportation of students.
